CareFlite Testimonial

The staff at CareFlite in Grand Prairie, TX, uses Rosco Vision Systems' Dual-Vision™ Continuous Video and Automotive Event Recorder (AER) primarily for accident and incident investigations.

Dual-Vision footage has provided proof that other drivers were at fault in the majority of accidents reported exonerating CareFlite drivers in incident investigations. CareFlite has also seen a 70% drop in backing accidents with the use of Dual-Vision™ and Rosco backup cameras.

SAFE SAFETY management SOLUTION

DV-Pro®5 data management tools give greater control and value to information generated by Dual-Vision™ XC4 devices. Your insureds can create and build their fleet safety management programs with Dual-Vision™ XC4 and DV-Pro®5 to **REDUCE**, **IMPROVE**, and **PREVENT**.
